

# KIND TREE

Live Diamonds

# High Potency. Full Spectrum. Full Flavor.

Kind Tree Live Diamonds are a full spectrum concentrate with an extremely high level of purity. As the name suggests, these crystalline structures resemble diamonds—and they're just as sought after.

## How It's Made

Our Live Concentrates start with indoor grown flower that's frozen after harvest to preserve its quality and flavor. We use hydrocarbon solvents to extract terpenes and cannabinoids from the raw plant material. These cannabinoids are isolated and purified under heat and pressure to form a crystalline solid that resembles diamonds.

## How To Consume

Like any other concentrate, you'll need to heat diamonds before consuming. This concentrate can be vaped or dabbed using a concentrate rig. No rig? No problem. You can also crush diamonds and add it on top of dried flower like kief. Keep it fresh longer by storing it in your fridge or a cool, dry place.

## Benefits

- ✓ High potency for maximum effects and relief
- ✓ 100% cannabis with nothing added for a pure plant experience
- ✓ Full spectrum cannabinoids and terpenes
- ✓ Made with high quality, indoor grown flower
- ✓ Tested for potency and flavor with the highest standards
